# Drapery Worksheet

## Number of Widths

| | |
|---|---|
| window width | _____ |
| plus stacking (if any)* | + _____ |
| equals rod length | = _____ |
| times fullness (2.5, 3, 3.5) | × _____ |
| | = _____ |
| plus overlap and returns | + _____ |
| equals total drapery width | = _____ |
| divided by width of fabric (36″, 48″, 54″) | ÷ _____ |

\* Add one-third of window width to rod length to allow draperies to stack off window.

= _____ NUMBER OF WIDTHS

*Labels: Rod, Return, Sill Length, Apron Length, Floor Length, Baseboard*

## Cut Length

| | |
|---|---|
| finished drapery length | _____ |
| plus hems and headings | + _____ |
| double 4"header and hem =16"total | |
| equals cut length | = _____ |
| • divided by pattern repeat (if any) | ÷ _____ |
| • equals number of repeats per length | = _____ |
| • if a fraction remains round up to the next full number | → _____ |
| • multiply by the length of the repeat | × _____ |
| • equals the adjusted cut length | = _____ |
| times the number of widths | × _____ |
| equals yardage in inches | = _____ |
| divided by 36 inches | ÷36 = _____ |

TOTAL YARDS

## Lining

For 54″ wide linings, use the same number of widths as for the drapery fabric. For 48″ linings, add one extra width of lining for every 2-8 widths of 54″ drapery fabric.

= _____ NUMBER OF WIDTHS

| | |
|---|---|
| finished drapery length | _____ |
| plus hems and headings | + _____ |
| equals cut length | = _____ |
| times the number of widths of lining | × _____ |
| equals yardage in inches | = _____ |
| divided by 36 inches | ÷36 = _____ |
